

Elligo's Patient Travel Services

Meet Patient and Caregiver Transportation Needs

Elligo Health Research® offers customized travel, reimbursement, and stipend solutions to enhance the patient experience and accelerate study completion.

The physical location of research centers and required travel are often main barriers to participation.

95% of patients and 98% of caregivers said having a person dedicated to helping them with trial-related travel was “important” for their participation.*

Patient Travel Coordination

Customized to meet the unique needs of every individual patient, Elligo's patient travel services include:

- Concierge-level support with flight, hotel, and ground transportation coordination
- Booking options and assistance
- 24/7 assistance
- Trusted vendors with reduced rates and enhanced services
- Special request assistance, e.g., wheelchair accessibility

Participant Reimbursements

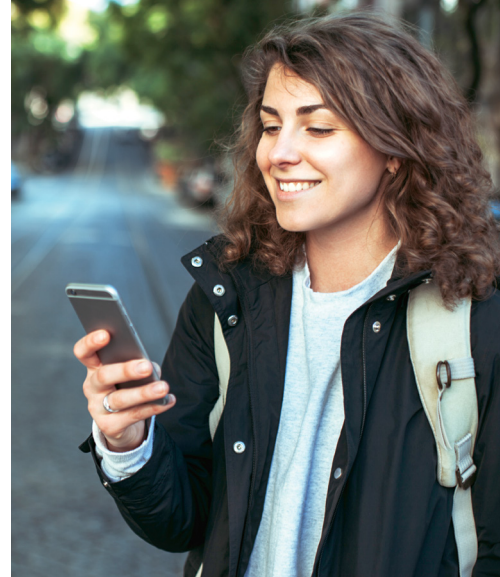

Elligo offers detailed review and quality assurance of patient receipts, expense reports, and more:

- An easy-to-use platform for patients, caregivers, and sites
- A mobile application for on-the-go submissions
- Real-time review
- Trackable funds and reimbursement approvals

Stipend Management

Quickly confirm completed visits for fast payments with:

- Immediate payout per completed visit
- Customizable stipend options per site
- A streamlined process to increase retention

Available in 30+ Countries

About Elligo Health Research®

Elligo Health Research accelerates clinical trials through EHR data, our proprietary IntElligo® technology, and direct access to known, diverse patients from more than 115 hospitals and major health systems, 200 healthcare-based sites, and 100 research-based sites. Our Patient*Select*® model engages our network of networks to optimize the intersection of healthcare and research and bring more patients clinical research as a care option. Our Site*Select* model and Research Partner Services enable sites to seamlessly participate in trials, further advancing the development of new pharmaceutical, biotechnology, and medical device and diagnostic products.
