

Seamlessly Conduct Studies With Our Expertise

Phase I, II, III, and IV trials

20+ different therapeutic areas

Over 2,000 Trials Successfully Supported

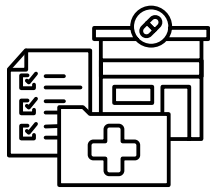

Elligo Research Partner Services

Only Elligo Is Changing the Clinical Research Paradigm

As a healthcare-first research organization, Elligo Health Research® offers modular infrastructure, customized support, and pipeline boosters to both new to research and experienced sites to increase revenue, accelerate and diversify trials, support the trusted patient-physician relationship, and expand patient participation in research as care.

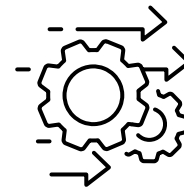

Our Research Partner Services, offered through the Elligo Research Network, meet you where you are in your research journey, offering services like:

- Business development
- Data-driven feasibility
- Financial management
- Regulatory services
- Study coordination support
- Patient recruitment and engagement support
- Coverage analysis

New to Research Healthcare-First Sites

End-to-end research support from Elligo

Experienced Research Sites With Elligo Support

Study placement, financial management, and technology services

Meaningful Benefits for Your Practice and Your Patients

"Elligo, in general, is very, very good. They know what they are doing. They helped us set up from A to Z, every part of the research. Their software is excellent, and they helped us every time we made mistakes. Their human solutions, their employees, stood out the most. We can't say enough good things about them.

I think every private practice should enter into clinical trials because then they'll be giving something back to the community and be helping the future of medicine. And not only that. Getting into trials is not as difficult as it normally is because of Elligo."

– An Elligo Research Network Site

For Experienced Sites

-  Reduced cost
-  Improved quality
-  Reduced administrative burden and overhead
-  Expanded therapeutic opportunities
-  Tailored research pipeline
-  Customizable support

For New to Research Sites

-  Research as care for patients
-  Reduced administrative burden and overhead
-  Diminished risk in starting research
-  Greater community visibility
-  Comprehensive staff training

The Healthcare-First Solution

Offering a uniquely unified clinical research ecosystem spanning the entire patient journey and trial process, Elligo increases access to research participation, augments patient care, and accelerates the development of new medicines and therapies.

About Elligo Health Research®

Elligo Health Research accelerates clinical trials through EHR data, our proprietary IntElligo® technology, and direct access to known, diverse patients from more than 115 hospitals and major health systems, 200 healthcare-based sites, and 100 research-based sites. Our PatientSelect® model engages our network of networks to optimize the intersection of healthcare and research and bring more patients clinical research as a care option. Our SiteSelect model and Research Partner Services enable sites to seamlessly participate in trials, further advancing the development of new pharmaceutical, biotechnology, and medical device and diagnostic products.
