

Elligo's Financial Management Services

Reduce Site Burden to Optimize Study Execution

Only Elligo Health Research® offers streamlined, automated, and customized solutions to enhance the site's financial process so they can focus on delivering the very best research as care.

Coverage Analysis

Targeted, actionable analysis backed by a proven track record in:

- Producing purposeful guidelines and determinations
- Identifying actual importance and impact

Budget Negotiations

Expert guidance in drafting and negotiating the budget agreements of your study, yielding:

- Fully maximized reimbursement
- Precise, polished budgets

Study Reconciliations

Complete study reconciliation management, including payment and accrued revenue report analysis, resulting in:

- Maximized collected revenues
- Bottom-line revenue increases

"Partnering with Elligo was one of the best business decisions our organization has made! Outsourcing the finance portion of our business has resulted in a decreased workload for site staff, streamlined processes, and increased revenue."

— Vice President, Research Site

Study Receivables Management

Enforcement of contract payment term language, timely invoicing, and more to:

- Ensure sites get paid accurately and on time
- Streamline internal processes

Monthly Reporting

Maintaining financial accuracy, timeliness, and future optimization through reports on:

- Monthly trial overviews
- Accrued revenues
- Accounts receivable aging
- Cash payments

Optimize the Intersection of Healthcare and Research. Accelerate Your Clinical Trial.

About Elligo Health Research®

Elligo Health Research accelerates clinical trials through EHR data, our proprietary IntElligo® technology, and direct access to known, diverse patients from more than 115 hospitals and major health systems, 200 healthcare-based sites, and 100 research-based sites. Our PatientSelect® model engages our network of networks to optimize the intersection of healthcare and research and bring more patients clinical research as a care option. Our SiteSelect model and Research Partner Services enable sites to seamlessly participate in trials, further advancing the development of new pharmaceutical, biotechnology, and medical device and diagnostic products.
