

Elligo's Solutions for Sponsors

Comprehensive Services and Technology to Optimize Clinical Research

Only Elligo Health Research® offers customizable solutions PatientSelect®, SiteSelect, and Study-Level Services as well as proprietary technology to empower and accelerate research in diagnostics, drugs, biologics, and devices in all phases and indications.

Streamline the Development of New Medicines and Therapies

- End-to-end study workflow technology

Boost Trial Enrollment and Retention

- Access to the largest known patient network
- 27% higher patient retention

Expand Diversity in Clinical Research

- 30%+ minority representation through nontraditional patient access

Reduce Risk and Increase Certainty

In the past year alone, Elligo has supported **1,000+** studies for more than **80** sponsors/CROs across **30** countries in **15+** therapeutic areas with **400+** employees.

When you need direct access to healthcare-first sites, elite research sites, or research practice management solutions to enable your clinical trials, there's Only Elligo.

HOW CAN ELLIGO ENABLE YOUR RESEARCH?

With three integrated service models and supporting technology, Elligo is your complete solution for research and commercialization success.

PatientSelect®

Focusing on the patient journey, PatientSelect® optimizes the intersection of healthcare and research and accelerates clinical trials by offering:

- Early, direct access to known, diverse patients and their EHR data from a network of more than 115 hospitals and major health systems, 200 healthcare-based sites, and 100 research based sites — supported by AI analytics
- Tailored services that allow researchers to join trials with minimal infrastructure

SiteSelect

Available for traditional, hybrid, and decentralized trials, SiteSelect makes trial placement convenient, fast, and precise through:

- Curated site selection powered by the Study Marketplace, a subscription-based site engagement platform
- Access to 500+ of the very best sites with vast experience, expansive therapeutic reach, and proficiency in every phase

Study-Level Services

Add-on solutions for a trial's existing sites, Study-Level Services enhance the clinical trial process with:

- EHR Data-Driven Feasibility & Protocol Optimization
- Patient Recruitment & Engagement Support
- RecordsConnectSM Medical Record Retrieval & Processing
- Patient Travel

STATE-OF-THE-ART TECHNOLOGY PORTFOLIO

Powers data management, patient identification and interaction, trial placement, study workflow, eSource solutions, and more.

DATA^{AI} Connect

A reusable, end-to-end platform to source, process, analyze, and distribute patient medical record data at scale.

IntelliGO[®] RESEARCH STACK

Real-world healthcare platform for study conduct and eSource.

STUDY MARKETPLACE

A subscription-based site engagement platform that streamlines trial placement with access to 500+ elite research sites.

AI-powered pre-screening and patient concierge tool.

**OPTIMIZE THE INTERSECTION OF HEALTHCARE AND RESEARCH.
ENABLE YOUR CLINICAL TRIAL.**
