

Study Pipeline & Placement for Sites

Effortlessly Put More Clinical Trials in Your Pipeline

Offered through the Elligo Research Network, Study Pipeline and Placement includes Study Lead Generation, Pipeline Management, and Feasibility Services to provide sites with a robust pipeline of exclusive study opportunities in high-interest indications that are aligned with their therapeutic focus and their patients' needs, resulting in:

- Reduced costs
- Improved quality
- Lowered site administrative burden and overhead
- Expanded therapeutic opportunities

Study Lead Generation

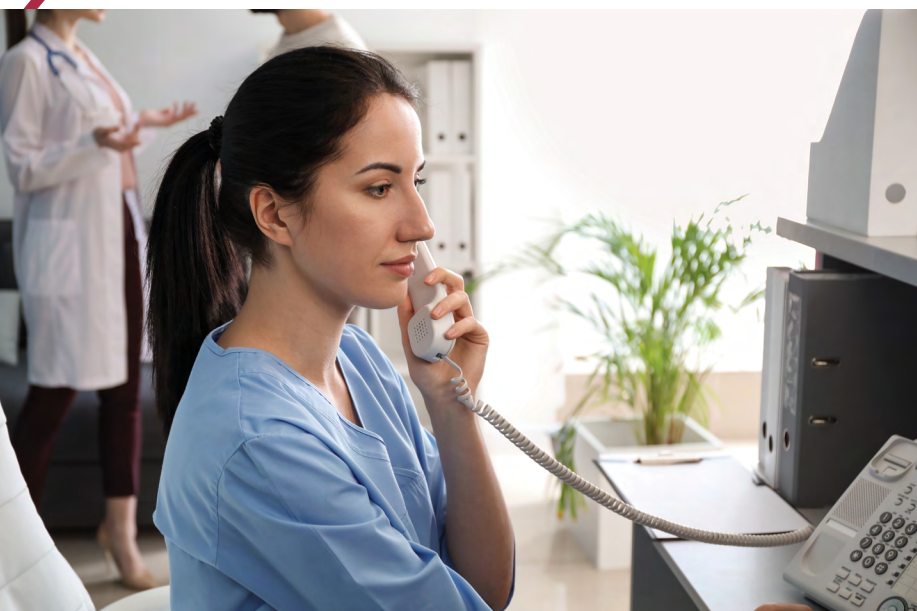

Access Exclusive Clinical Trials in High-Interest Therapeutic Areas

- Benefit from Elligo's established partnerships with leading sponsors and CROs
- Identification and sourcing of study opportunities by a dedicated trial acquisition team in advance of site identification, leaving you free to focus on patient care

Pipeline Management

Ease Your Administrative Burden

- Regular calls to review your current pipeline, determine high-priority and high-probability leads, and move forward with actionable opportunities

Feasibility Services

Earn More Study Awards

- Proprietary technology and customized solutions streamline your process
- Expert guidance on sponsor and CRO expectations, questionnaires, and more

The Easiest Way to Conduct Clinical Trials

Elligo Research Partner Services

Serving as a clinical trial site can be challenging, but it doesn't have to be. Partner with Elligo for customized solutions and a true partner that will maximize your potential.

Grow your revenue and augment your patient care while advancing the development of new medicines and therapies.

About Elligo Health Research®

Elligo Health Research accelerates clinical trials through EHR data, our proprietary IntElligo® technology, and direct access to known, diverse patients from more than 115 hospitals and major health systems, 200 healthcare-based sites, and 100 research-based sites. Our Patient*Select*® model engages our network of networks to optimize the intersection of healthcare and research and bring more patients clinical research as a care option. Our Site*Select* model and Research Partner Services enable sites to seamlessly participate in trials, further advancing the development of new pharmaceutical, biotechnology, and medical device and diagnostic products.
