

## Accelerate Your Psychedelic Research With Elligo's Pioneering Site Network

Elligo Health Research® is at the forefront of this rapidly emerging field, offering direct access to a meticulously built network of psychedelic research sites designed to facilitate cutting-edge trials.

### A New Era of Mental Health

Psychedelic therapy represents a paradigm shift in the treatment of various mental health conditions. By joining forces with Elligo, you will gain the infrastructure you need for reliable, high-quality research that will lead the charge into this exciting new frontier.

### Hand-Selected Sites

Environment plays a critical role in psychedelic therapy. The sites in Elligo's psychedelic network are serene, spa-like havens hand-picked and vetted to handle the unique demands of psychedelic trials so you can:

- Maximize comfort
- Optimize therapeutic experience
- Ensure patient safety
- Protect study integrity and quality

### Comprehensive Study Support

We don't just provide locations. We become your partners in progress, helping you navigate the complexities of psychedelic trials through:

- Access to psychedelic therapy experts
- Customized solutions for every study stage
- Collaboration bolstered by experience and a deep understanding of the field

## Constant Innovation

Elligo is committed to pushing the boundaries of what's possible in psychedelic therapy. Our network is continually expanding and evolving to meet the needs of this dynamic field, allowing you to pioneer desperately needed care and retain a competitive edge.

**When you access one of the largest psychedelic site networks,  
you won't just conduct trials – you'll create possibilities.  
Shape the Future of Mental Health Care**

*"I know first-hand the therapeutic potential of psychedelics. A few years ago, a loved one was struggling with addiction, anxiety, and depression. We tried everything within the traditional mental health industry, but his condition only worsened. Then I came across a lesser-known drug that gave him his life back – a drug he wouldn't have accessed without pioneering research.*

*Using my decades of experience in traditional mental health, I have made it my priority to help make connections in this new emerging market, a market I believe will change the world."*

Angela Terhune-Hargrove, MHA

#### About Angela

Angela is an accomplished Senior Business Development and Clinical Research Professional within the pharmaceutical/CRO, psychedelic research, CNS, biotech, OTC, cannabis, & dietary supplements industries who is known for fostering and leading teams that transform patient care and optimize operations.

#### About Elligo Health Research®

Elligo Health Research accelerates clinical trials through EHR data, our proprietary IntElligo® technology, and direct access to known, diverse patients from more than 115 hospitals and major health systems, 200 healthcare-based sites, and 100 research-based sites. Our Patient*Select*® model engages our network of networks to optimize the intersection of healthcare and research and bring more patients clinical research as a care option. Our Site*Select* model and Research Partner Services enable sites to seamlessly participate in trials, further advancing the development of new pharmaceutical, biotechnology, and medical device and diagnostic products.
