

# ONLY ELLIGO

ACCELERATES YOUR CLINICAL TRIAL  
THROUGH HEALTHCARE

# ONLY ELLIGO

**offers direct access to known patients  
with their trusted physicians and research  
practice management solutions.**

## Clinical trials are facing real challenges:

97% of physicians and patients do not participate in research due to costly infrastructure and daunting workflow requirements

85% of trials miss timelines; patient recruitment is most often the bottleneck

Diverse populations are underrepresented in clinical research

**Every day delayed to market results in lost revenue of \$600K-\$8M.**

## Elligo Is the Answer

Elligo Health Research's adaptive engagement model, consisting of eSolutions Research Accelerator and Research Partner Services, provides you access to the best patients, healthcare experts, and research technologies. As the ultimate healthcare-enabling research organization, we maintain the integrity of the trusted patient and physician relationship, leveraging electronic health records to bring more patients clinical research as a care option.

## eSolutions Research Accelerator

eSolutions Research Accelerator gives you early, direct access to diverse patients through HIPAA-compliant identified healthcare data and our PatientSelect trials so you can rapidly conduct clinical trials using our IntElligo® Research Stack at Research Ready sites.
