-  **Greater community visibility**
-  **Comprehensive staff training**

**INCREASE YOUR REVENUE AND AUGMENT YOUR PATIENT CARE WHILE  
ADVANCING THE DEVELOPMENT OF NEW MEDICINES AND THERAPIES**

## HOW CAN ELLIGO HELP YOU?

With four customizable service models, Elligo's Research Partner Services seamlessly support you, whether you are new to research or have conducted hundreds of trials.

### STUDY PLACEMENT AND PIPELINE MANAGEMENT

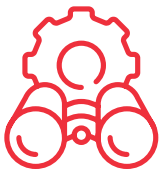

Providing study lead generation, pipeline management, and feasibility services to increase the number of clinical trials you conduct, expanding your revenue and providing your patients with more research as care.

### EXCLUSIVE PATIENTSELECT TRIALS

Offering access to exclusive clinical trials tailored to your research interests and your patients' needs, as well as coordination of operational and administrative activities with an emphasis on patient centricity and the application of a robust, multifaceted technology platform.

- Exclusive studies
- Technology stack
- Central control team
- Keeps patients at your site

### END-TO-END RESEARCH SUPPORT

A comprehensive research enablement and support program that includes training, infrastructure support, technology, business development, study feasibility and coordination, financial management, and more to help new to research sites quickly achieve Research Ready status and seamlessly conduct research going forward.

- Support from business development through financial management
- No out-of-pocket payments
- Technology stack and infrastructure
- Research Ready in just eight weeks
- Study coordinator training and assistance

### FINANCIAL MANAGEMENT SERVICES

Customizable research support to reduce administrative burden and overhead, lower costs, and improve the quality of trials.

- Contract and budget negotiations
- Coverage analysis
