IntElliGO
RESEARCH STACK
Technology

Streamlining data collection from patient identification to study close.

IntElligo® Research Stack technology is the only system designed to work in a real-world healthcare environment, collecting data at the point of care using CDISC global research data standards, then automatically using it for regulatory compliance and study operational management.
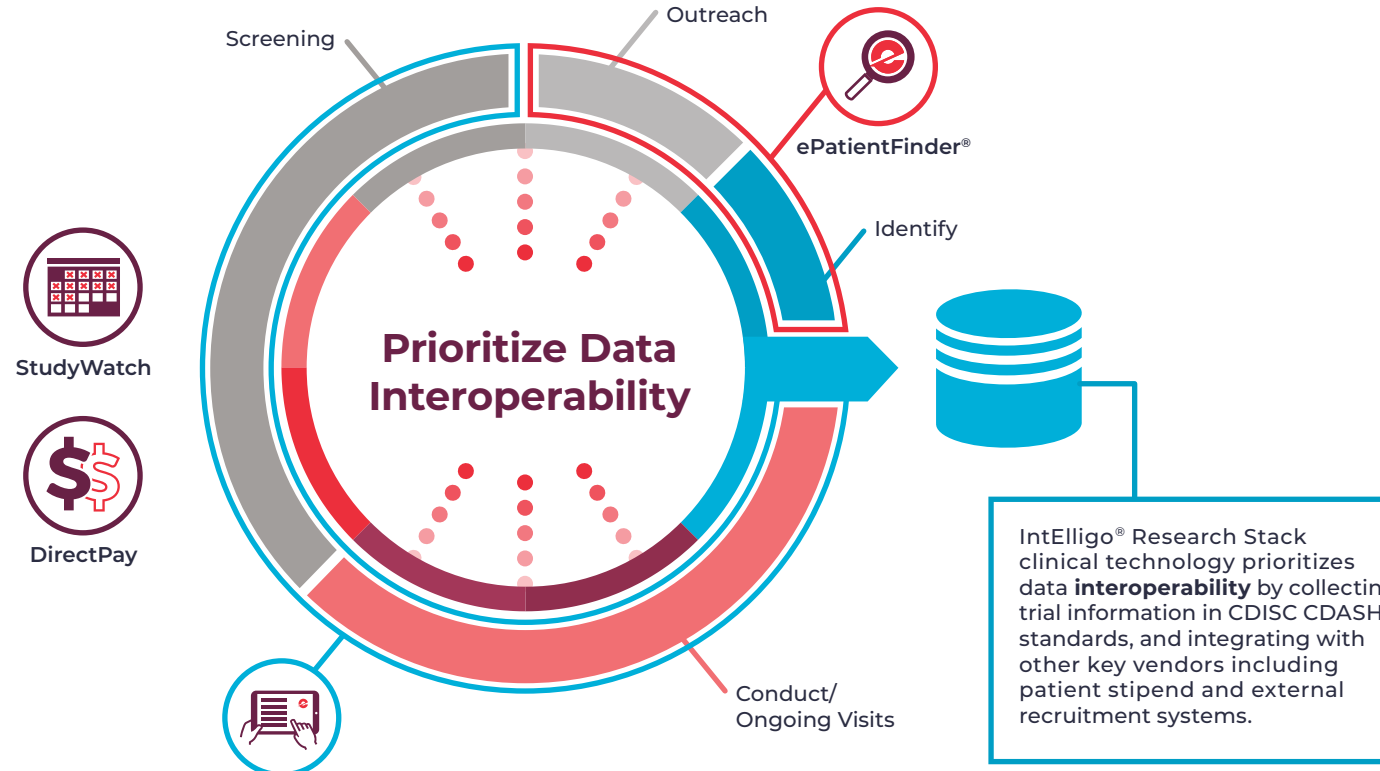

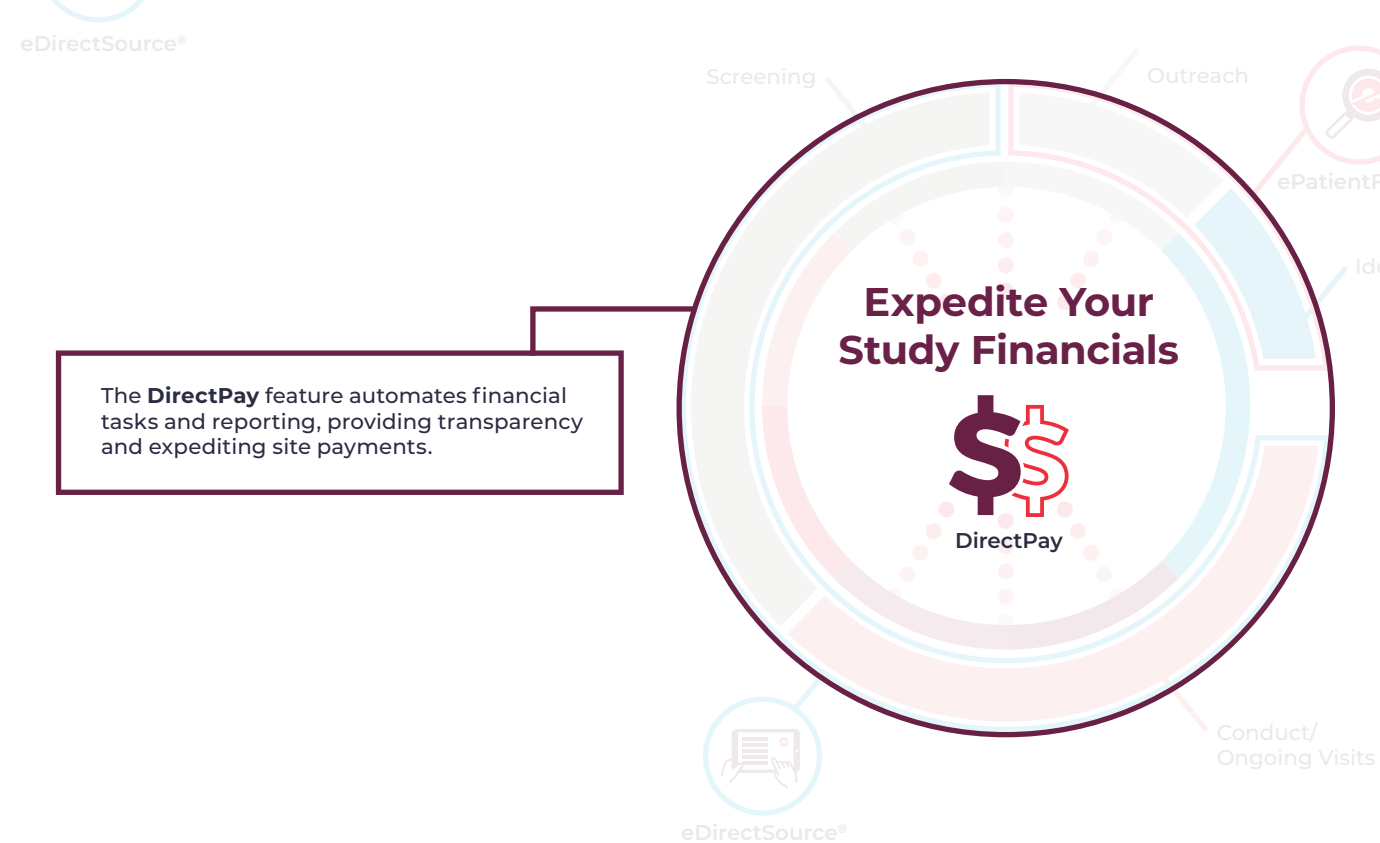

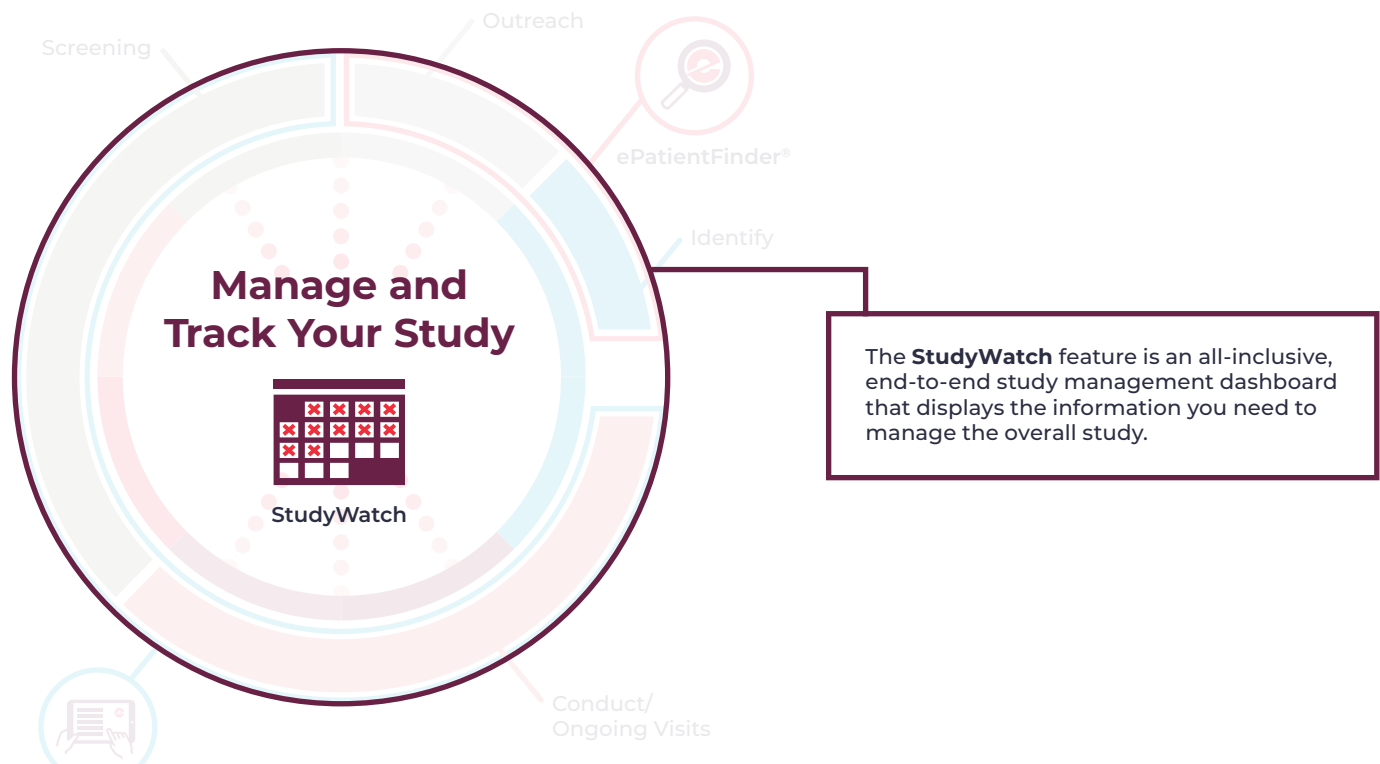

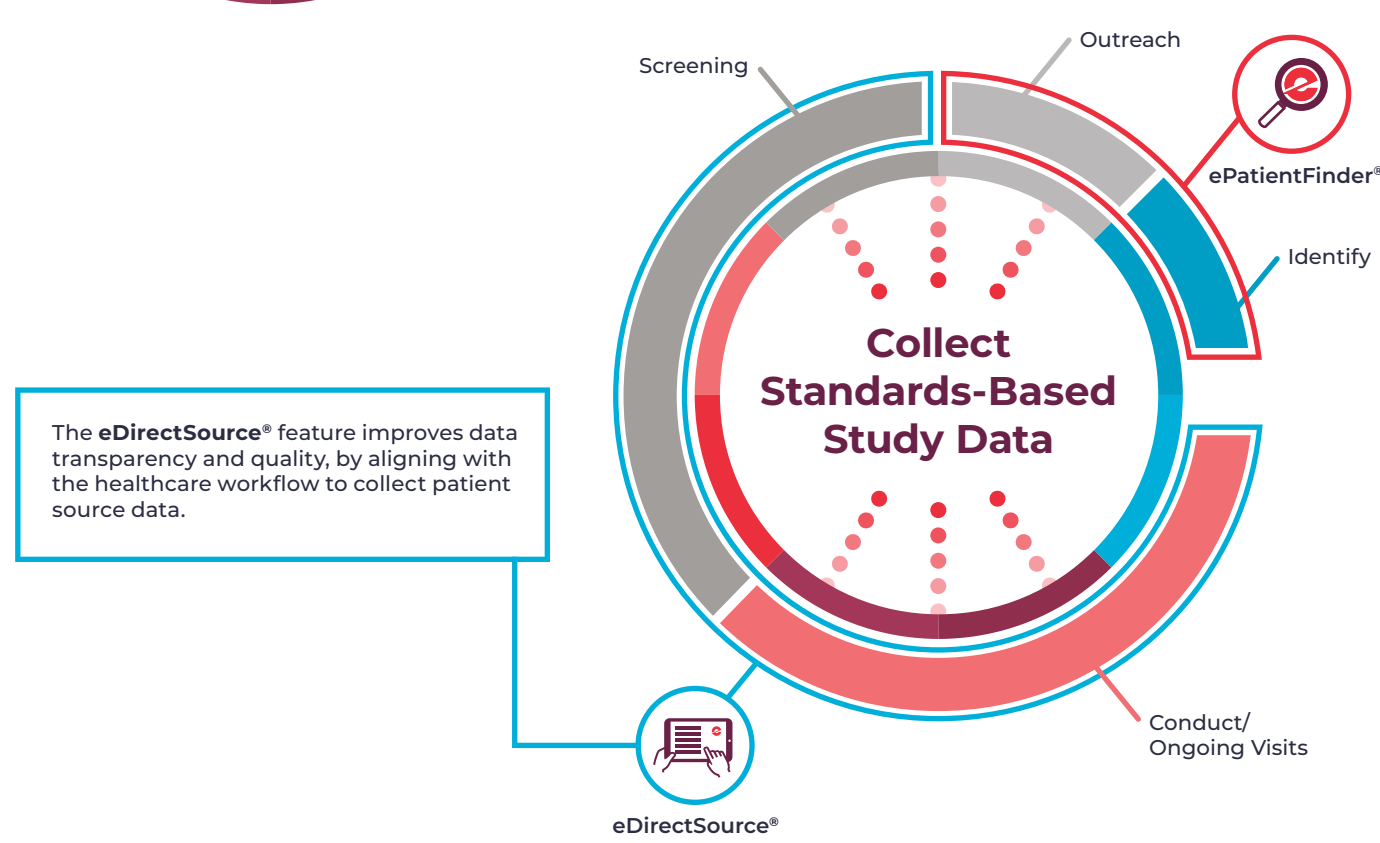

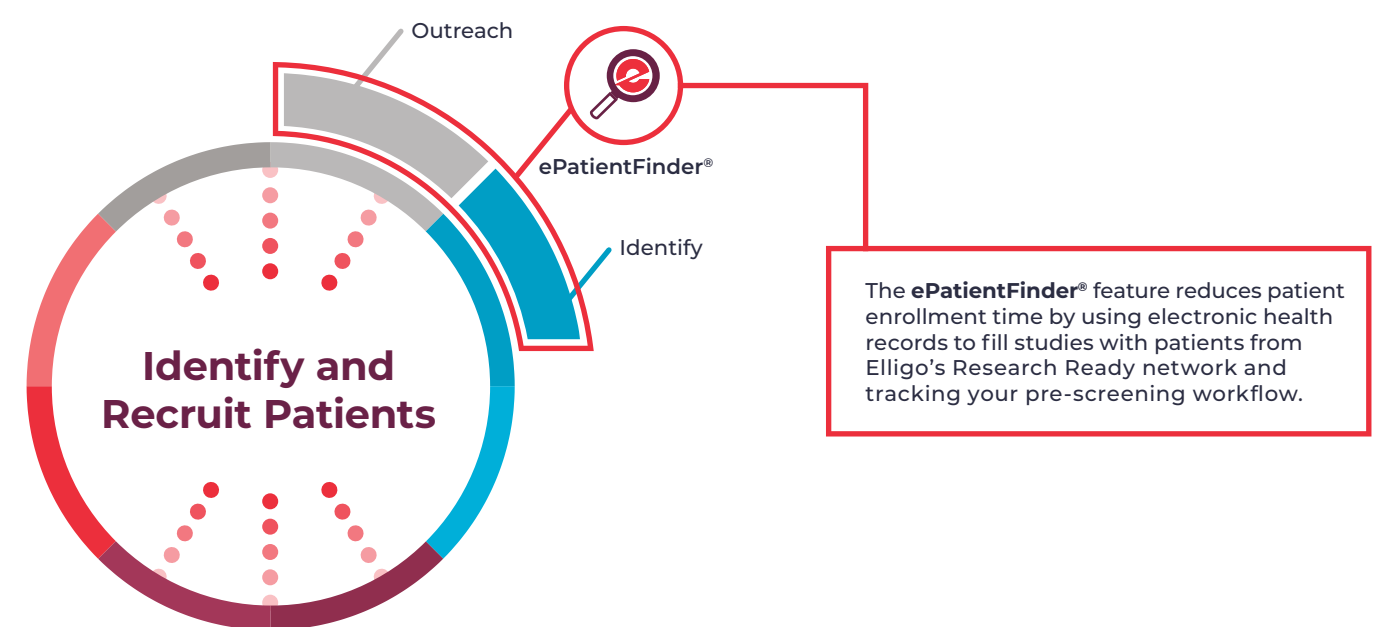

Standards-based source data collection

Streamlined study operations

Real-time data updates and analytics

Identify and Recruit Patients

Outreach

ePatientFinder®

Identify

The **ePatientFinder®** feature reduces patient enrollment time by using electronic health records to fill studies with patients from Elligo's Research Ready network and tracking your pre-screening workflow.

Collect Standards-Based Study Data

Screening

Outreach

ePatientFinder®

Identify

Conduct/ Ongoing Visits

eDirectSource®

The **eDirectSource®** feature improves data transparency and quality, by aligning with the healthcare workflow to collect patient source data.

Manage and Track Your Study

StudyWatch

The **StudyWatch** feature is an all-inclusive, end-to-end study management dashboard that displays the information you need to manage the overall study.

Expedite Your Study Financials

$

DirectPay

The **DirectPay** feature automates financial tasks and reporting, providing transparency and expediting site payments.

Prioritize Data Interoperability

Screening

Outreach

ePatientFinder®

StudyWatch

DirectPay

eDirectSource®

Conduct/ Ongoing Visits

IntElligo® Research Stack clinical technology prioritizes data **interoperability** by collecting trial information in CDISC CDASH standards, and integrating with other key vendors including patient stipend and external recruitment systems.

The IntElligo system accelerates and enhances data collection from feasibility through submission by automating administrative tasks, alerting for any quality issues, and streamlining data output — all while maintaining the integrity of the trusted physician and patient relationship.

Physicians	Sponsors	Elligo
// Easier oversight	// Improved visibility	// Quality oversight
// Remote reviews	// Remote monitoring	// Efficient study conduct
// Reduced tracking	// Transparency to real-time patient journey	// Real-time transparency
// Easier access to data	// Interoperability	// Paperless study conduct
// Support for healthcare workflow	// Patient centricity	// Automated study administration processes
// Faster payments	// PI satisfaction	

ONLYELLIGO

About Elligo Health Research®

Elligo Health Research, a healthcare-enabling research organization, uses electronic health records and the trusted patient and physician relationship to ensure all patients have access to clinical research as a care option. Powered by our Goes Direct® approach and novel IntElligo® Research Stack clinical technology, our team provides access to the best healthcare experts, patients, and research technologies. We engage physicians and patients who otherwise would not participate in clinical research and accelerate the development of new pharmaceutical, biotechnology, and medical device and diagnostic products.
